## PROFESSIONAL SUMMARY

A passionate aspiring Data Engineer and Analytics professional with hands-on experience in Databricks and Power BI, focused on building data-driven solutions and deriving insights. Proficient in Java and SQL with a strong foundation in data processing. Familiar with Machine Learning, Cloud fundamentals, and emerging AI concepts such as AI agents and agent-based frameworks, along with DevOps tools including Docker and Git.

## EDUCATION

|                                                                                                     |                          |
|-----------------------------------------------------------------------------------------------------|--------------------------|
| <b>Sathyabama Institute Of Science and Technology</b><br><i>BE Computer Science and Engineering</i> | 8.44 CGPA<br>2022 – 2026 |
| <b>Amaravati College</b><br><i>Class XII</i>                                                        | 78.2%<br>2020 – 2022     |
